MICHAEL KHURI

COMPUTER SCIENTIST

I'm Michael Khuri, a recent Computer Science graduate with a strong foundation in software development, Unity game development, cybersecurity, and customer service. I am eager to gain hands-on experience in AI/ML, software development engineering, software engineering, or related fields. I'm passionate about applying my skills to innovative projects that make a real-world impact across different industries and roles.

TOP PROJECTS

Detection

JAN 2023 - PRESENT

Developer - <https://detectiongame.com/>

- Developed a virtual reality game in **Unity** using **C#** with a team of five.
- An immersive virtual reality first-person shooter where you need to scan your environment.
- Gameplay: https://www.youtube.com/watch?v=Dj0y_OX5fII

SmartTuffy

FEB 2024 - FEB 2024

Lead Developer - <https://github.com/Savant-sys/SmartTuffy>

- Developed a website in **JavaScript**, **CSS**, **TypeScript**, **React**, **OpenAI API**, and **Next.js** with a team of four in 24 hours at a CSUF hackathon.
- Created an AI-powered chatbot that helps college students discover their class schedules and club events in an interactive and user-friendly way.
- Utilized AI to provide schedule recommendations by accessing data on all class schedules for a specific school.

SiblingAI

NOV 2023 - DEC 2023

Lead Developer - <https://github.com/Savant-sys/siblingAI>

- Developed an AI chatbot independently using **JavaScript**, **Next.js**, and **CSS** that learns from user interactions for personalized responses.
- Utilized the **JS similarity API** to recognize similar phrases with 60% accuracy.
- Enhanced user engagement by allowing the AI to adapt its responses based on conversation history.
- Website: <https://sibling-ai.vercel.app/>

The Block Jumper

SEP 2022 - DEC 2022

Developer - <https://github.com/Savant-sys/The-Block-Jumper>

- Developed a mobile game on **Unity** with **C#**.
- Coordinated a team of five programmers using **GitHub with Git Bash and Git LFS**.
- Applied software engineering concepts and practiced team efficiency using the Agile method.
- Gameplay: <https://evanjholsch.itch.io/blockjumper>

WORK EXPERIENCE

InBlue IT Solutions

MAR 2023 - MAY 2024

Network Administrator

- Logged and monitored network activities to prevent unauthorized access.
- Installed and configured networks for new client offices, including security cameras, firewalls, switches, printers, and computers.
- Provided remote technical support and maintenance, ensuring excellent customer service.
- Stayed current with technology advancements to deliver optimal solutions for client needs.
- Developed and maintained a client-focused website to enhance customer engagement and support business growth.

DoorDash

JUL 2020 - PRESENT

Dasher/Delivery Driver

- Managed delivery routes efficiently, ensuring timely deliveries and strong time management.
- Resolved issues quickly, demonstrating problem-solving skills and adaptability.
- Protected customer data, gaining foundational data security understanding.
- Enhanced communication and customer service through regular interactions.
- Utilized GPS and mobile apps, showcasing tech-savviness.
- Maintained a consistent work ethic while balancing academic commitments.
